## Overview

Mandatory Notification (MN) of Tuberculosis (TB) can help inclusion of the estimated number of missing TB patients for treatment and management. TB was identified as a mandatorily notifiable disease by means of a gazette published in 2014 by order of the honorable President of Bangladesh. All public and private health providers should notify TB patients diagnosed and/or treated by them to the government through the nearest government health officials. Notification of all diagnosed TB patients through mobile/web application to National Tuberculosis Program (NTP) has recently been eased through digital tools. Notification data adds to national data towards including all TB patients from root level, i.e. any health providers to central level, i.e. National Tuberculosis Program.

According to the gazette published, Tuberculosis is defined for case notification as below:

- Any patient diagnosed with sputum specimen positive for acid-fast bacilli, or culture positive for *Mycobacterium tuberculosis*, or NTP endorsed rapid molecular diagnostic test positive for TB.
- Any patient diagnosed clinically as a case of Tuberculosis, without microbiological confirmation, and initiated on anti-TB drugs.

## Purpose

This document is prepared as a step by step guide through all the features/uses of 'Janao' App for any intended user, their associates or any stakeholder related to the uses/users of this app.

## Scope

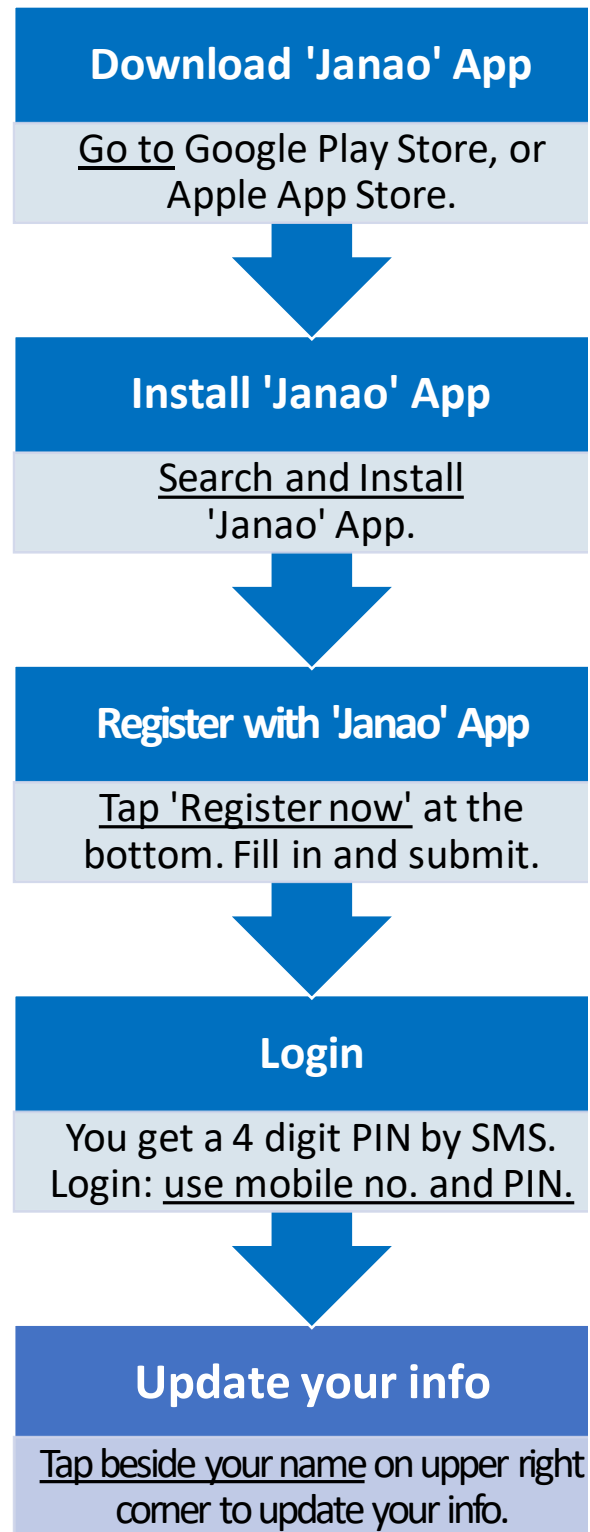

Main scope of this document is to assist the intended users or their associates in accessing and using 'Janao' app to notify TB patients and, getting subsequent feedback on notified patients regarding treatment enrollment.

## Intended users

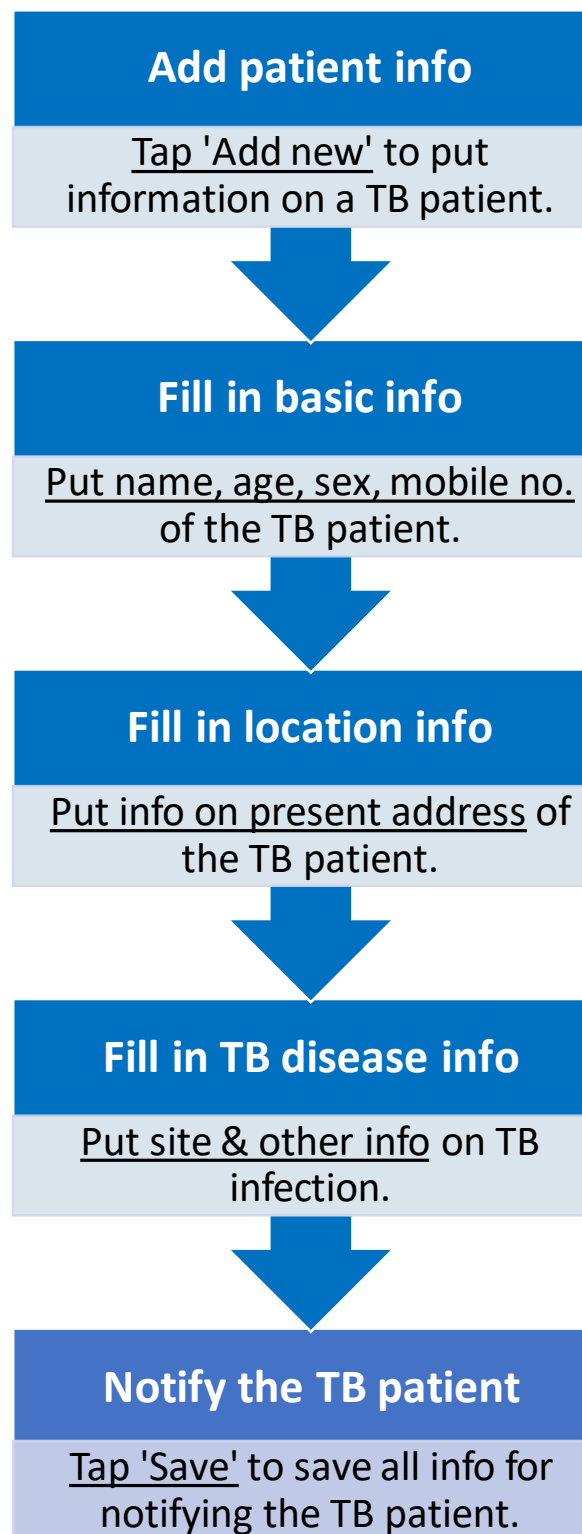

The document is prepared for any Graduate Private Practitioner (PP) who diagnose TB patients, and stakeholders/partners of National Tuberculosis Control Program (NTP) who need to handle data on TB notification.

## 'Janao' App Quick Access Guide

Register with the App:

Notifying diagnosed TB patients:

Getting your feedback:

### See list of notified patients

- Tap 'List' to see notified patient list. Tap any patient to see details.

### DOTS enrollment feedback

- For each TB patient enrolling into DOTS, you will get update by SMS.

### Seeking Help

- Tap upper right menu & 'Help': call/SMS, or email, or use FAQ.

### Check User Panel

- See summaries on notified TB patients according to time & type.

### Retrieve PIN

- If you forgot PIN, tap 'Forgot PIN' on left to get PIN by SMS.

## Level of Users

'Janao' App has three levels of users who have different level of access to the application as necessary:

### End users (doctor or assistant)

Any user who enters primary data to the application through mobile or web are pre-registered having a centrally managed unique ID. Any end user facing PIN related problem can contact helpline for resetting of PIN or click the forgot PIN option in the application.

### Mid-level users (DOTs providers/managers)

For convenience, any user other than end users or admin users uses the application through mid-level user access. They will have access to update information after entries by the end users and to enter follow up information of the TB patients where necessary. Any mid-level user facing PIN related problem can contact helpline for resetting of PIN or click the forgot PIN option in the application.

### Admin users (Users at NTP & implementing partners)

There are three central level users - Helpline, Program-admin and Technical-admin. The helpline is for solution of problems at any user level, program-admin is for central follow up & reporting, and technical-admin is for technical troubleshooting and development testing purpose. All three admin users have full access to any part of the system and can play roles where follow-up is required for an end user or mid-level user.

### User verification

All the users need to log in to the application with a valid user name (mobile number) and PIN (four digit). PIN will be auto generated and sent to the user through SMS after registration and verification (if necessary, the users will be verified through pre-listed mobile number to be a potential user of the system).

### Helpline for users

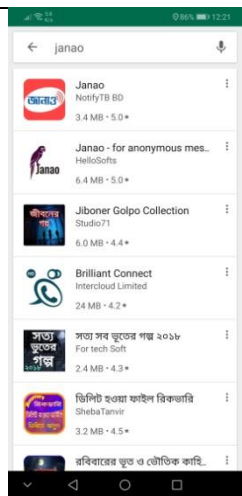

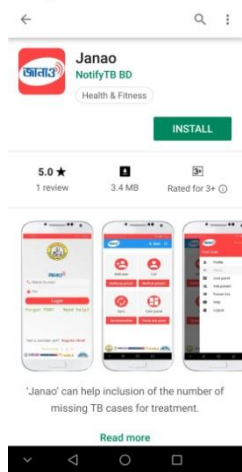

Any user facing PIN related problem can contact helpline for resetting of PIN or click the forgot PIN option in the application. Helpline will be assisting for troubleshooting any operational or technical problems that are reported through call/SMS to helpline mobile number, or through helpline email address, or from contact panel in the web application. Any user seeking help, will be immediately acknowledged through the respective way of asking help as above.

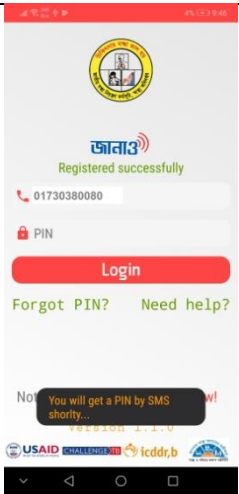

## Operating 'Janao' app

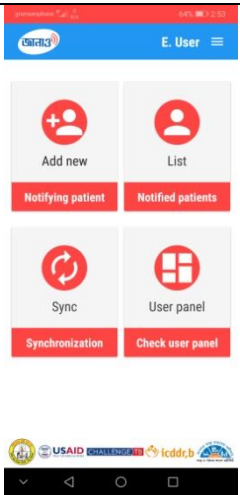

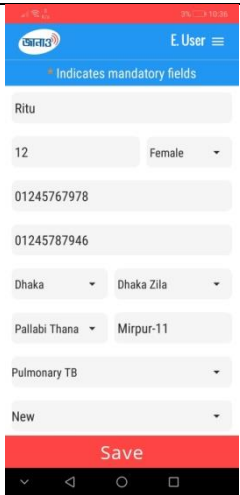

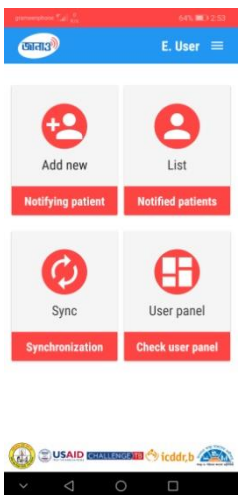

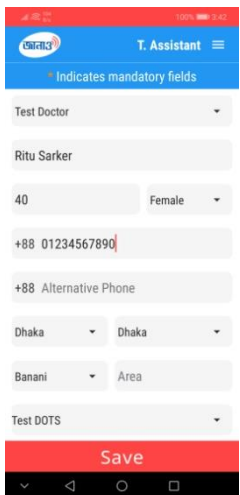

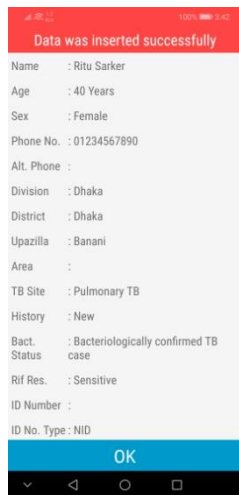

'Janao' application for TB notification can be accessed through the links below for its web interface. The mobile platform of the application is developed as an android app as well as an iOS app that can be downloaded through the respective links below. They are also available from the Google Play Store and Apple App Store. A health provider can use all the functions as an end user through the 'Janao' android/iOS mobile application.

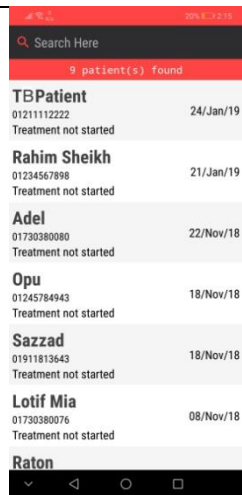

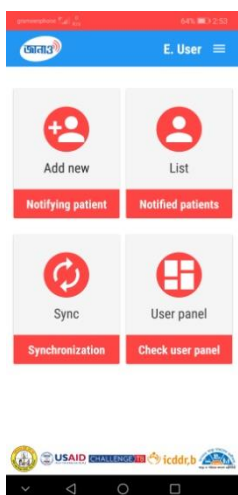

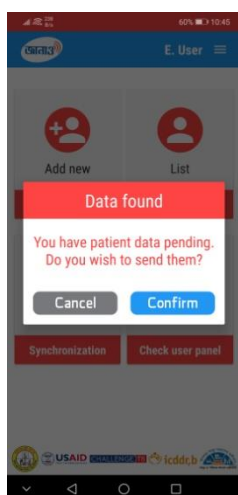

- App available at: [Google Play Store](#) and [Apple App Store](#)
- Web application link: [notifytb.icddr.org](http://notifytb.icddr.org)

### Using 'Janao' mobile app by doctors or their assistants

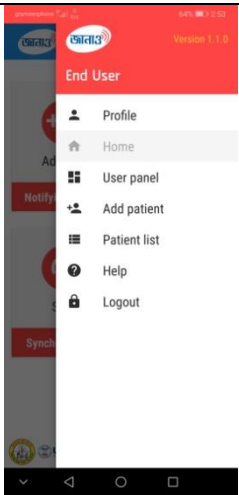

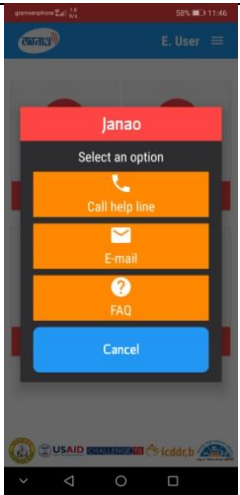

#	Item	Description	
1	Download 'Janao' mobile app	To start with the application in your mobile, a potential user needs to search 'Janao' from <a href="#">Google Play Store</a> or <a href="#">Apple App Store</a> to find the app.	
2	Install the app	A user can install the app by tapping 'Install' button in <a href="#">Google Play Store</a> or <a href="#">Apple App Store</a> to install the app in a mobile.	
3	Register with 'Janao' app	A user can register easily by opening the app & tap 'Register Now' link on the lower right corner. A few basic information including 11-digit mobile number will do. Tapping the Register button will confirm your registration through SMS within a few minutes.	

#	Item	Description
		
4	Login to the app	<p>A user will receive a 4-digit PIN with the confirmation SMS. Putting the registered mobile number and the PIN number and then tapping the 'Login' button will log in the user. Once logged in successfully, then the app will keep the user logged in for subsequent uses.</p> 
5A	Notifying a TB patient by a <b>doctor</b>	<p>After logging in or by just opening the app subsequently, a user can notify a TB patient by tapping 'Add new' button on upper left side. A simple form will appear to put information for notification of a TB patient. Some of the information are essential and those fields are marked with asterisk. The doctor or any assignee (assistant) should put all the information to notify a TB patient. If not available, the information for fields not marked with asterisk may be skipped.</p>

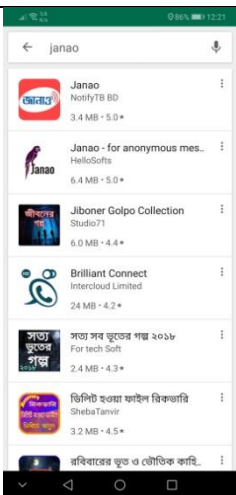

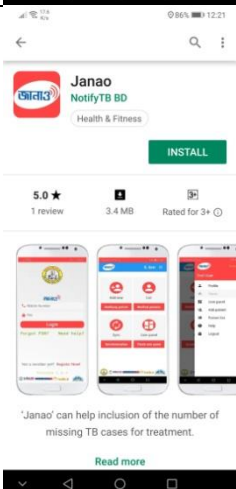

#	Item	Description
		  
5B	Notifying a TB patient by a <b>doctor's assistant</b> using the <b>app</b>	<p>After logging in or by just opening the app subsequently, a user can notify a TB patient by tapping 'Add new' button on upper left side. A simple form will appear to put information for notification of a TB patient. Some of the information are essential and those fields are marked with asterisk. Any doctor's assignee (assistant) should select the name of the doctor s/he is notifying for first. Then put all the information to notify a TB patient. If not available, the information for fields not marked with asterisk may be skipped.</p>   
5C	Notifying a TB patient by a <b>doctor's assistant</b> using <b>SMS</b>	<p>In case, smart phone is not available for notifying TB patients, SMS can be used for the purpose, though only with very basic/limited information.</p> <p>A user can use the SMS function from a registered mobile number to 'Janao' app. To do so, SMS can be written as below:</p>

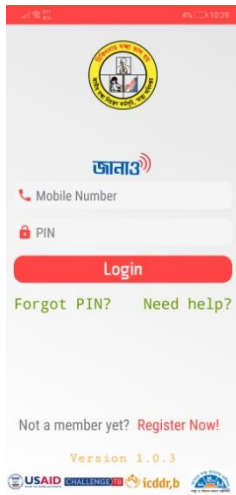

#	Item	Description																																						
		<div><div></div><div><p>Patient name (First name/last name only) [Space] Mobile number [Space] Age in years [Space] TB site</p><p>Here, TB site can be either <b>PTB</b> or <b>EPTB</b>. Example: <b>Rahim 01XXXXXXXXXX 24 PTB</b></p><p>The <b>SMS</b> should be sent to <b>01730380078</b></p></div></div>																																						
6	Use the notified TB patient list	<div><div><p>Once one or more TB patients are notified, a user can view the list of the patients by tapping ‘List’ button on upper right side. Information of a notified patient can be updated within 24 hours of submission by tapping the patient name from the list. The user will also get treatment enrollment information of each notified patient by SMS within 15 days of notifying, or by tapping on a patient name from this list of notified TB patients.</p></div><div><table><thead><tr><th>TBPatient</th><th></th></tr></thead><tbody><tr><td>01211112222</td><td>24/Jan/19</td></tr><tr><td colspan="2">Treatment not started</td></tr><tr><td><b>Rahim Sheikh</b></td><td>21/Jan/19</td></tr><tr><td>01234567898</td><td></td></tr><tr><td colspan="2">Treatment not started</td></tr><tr><td><b>Adel</b></td><td>22/Nov/18</td></tr><tr><td>01730380080</td><td></td></tr><tr><td colspan="2">Treatment not started</td></tr><tr><td><b>Opu</b></td><td>18/Nov/18</td></tr><tr><td>01245784943</td><td></td></tr><tr><td colspan="2">Treatment not started</td></tr><tr><td><b>Sazzad</b></td><td>18/Nov/18</td></tr><tr><td>01911813643</td><td></td></tr><tr><td colspan="2">Treatment not started</td></tr><tr><td><b>Lotif Mia</b></td><td>08/Nov/18</td></tr><tr><td>01730380076</td><td></td></tr><tr><td colspan="2">Treatment not started</td></tr><tr><td><b>Raton</b></td><td></td></tr></tbody></table></div></div>	TBPatient		01211112222	24/Jan/19	Treatment not started		<b>Rahim Sheikh</b>	21/Jan/19	01234567898		Treatment not started		<b>Adel</b>	22/Nov/18	01730380080		Treatment not started		<b>Opu</b>	18/Nov/18	01245784943		Treatment not started		<b>Sazzad</b>	18/Nov/18	01911813643		Treatment not started		<b>Lotif Mia</b>	08/Nov/18	01730380076		Treatment not started		<b>Raton</b>

7	Use sync	<div><div><p>By tapping ‘Sync’ button on the lower left side, all the inputs in the app will be immediately synchronized with a central server and will not allow further updates from user end.</p></div><div><div></div><div></div></div></div>																																						

#	Item	Description
8	Check user panel	By clicking lower right button 'User panel', user specific summaries, e.g. number/details of notified patients, number of pulmonary/extra-pulmonary patients etc. will be visible. <div data-bbox="1093 232 1337 725" data-label="Figure"> <p>The screenshot shows a green header with the number '9' and a user icon. Below it, a bar chart displays patient statistics: 'Total patients notified' (1), 'Today' (2), 'Last 7 days' (8), 'Pulmonary' (1), and 'Extra Pulmonary' (1). A red banner at the bottom says 'Thank you for notifying TB'.</p> </div>
9	Update/edit profile	A user can see his/her name after logging in on the upper right corner of 'Janao' application. By clicking on the menu icon beside the name, a sliding bar will be visible. The profile option on the bar can be tapped to update profile information related to professional practice/affiliation. <div data-bbox="454 934 1337 1426" data-label="Image"> <p>The image contains three screenshots. The first shows a sliding menu with options: Profile, Home, User panel, Add patient, Patient list, Help, and Logout. The second shows the 'End User' profile page with fields for Age (53 Years), Sex (Male), Phone No. (01552371066), Specialization (none), Primary facility (The Medical Centre Ltd. Dhanmondi), and Location (Dhanmondi, Dhaka, Dhaka). The third shows the 'Update Profile Here' form with fields for Name, Age, Sex, Specialization, Primary facility, Division, District, and Upazilla, along with 'Cancel' and 'Update' buttons.</p> </div>
10	Seek help	A user can seek help by tapping the menu on upper right corner of 'Janao' application. A sliding bar will be visible having a 'Help' option on the bar can be tapped to get help by call/SMS to helpline mobile number, or through helpline email address, or through Frequently Asked Questions (FAQ).

### Function of a DOTS provider using 'Janao' App or SMS

#	Item	Description
1	Download 'Janao' mobile app	<p>To start with the application in your mobile, a user needs to search 'Janao' from <a href="#">Google Play Store</a> or <a href="#">Apple App Store</a> to find the app.</p> 
2	Install the app	<p>A user can install the app by tapping 'Install' button in <a href="#">Google Play Store</a> or <a href="#">Apple App Store</a> to install the app in a mobile.</p> 

#	Item	Description
3	<b>Register</b> to 'Janao' app	<p>A DOTS provider should contact Helpline for registration/change of DOTS mobile number for handling/tracking notified TB patients.</p> <p>In case, smart phone is not available for responding to notified TB patients, SMS can be used by a DOTS provider for the purpose.</p>
4	<b>Login</b> to 'Janao' app	<p>Any user will receive a 4-digit PIN with a confirmation SMS after registration. Putting the registered mobile number and the PIN number to the App and then tapping the 'Login' button will log in the user. Once logged in successfully, then the app will keep the user logged in for subsequent uses.</p> <p>A registered DOTS provider will get information of notified TB patient in the App or by SMS when a patient near the vicinity is notified from a doctor. Then s/he should call the patient and send patient status through the App or SMS as below.</p> <div style="display: flex; justify-content: space-around; align-items: center;">   </div>
5	<b>Handling</b> a notified TB patient by App	<p>A user can tap the list of notified TB patient and get contact number and other detail of the patient. Then after calling the patient s/he should record the patient as called using the sliding button 'Confirm as called' at the bottom. Then tap the 'Enroll here' button if the patient wants to enroll in the same DOTS, or tap the 'Refer to others' button if the patient wants to enroll in other DOTS, or s/he should record the patient for private treatment using the sliding button 'Private treatment' if the patient wants to take treatment privately.</p>

#	Item	Description
		 
6A	Enroll a notified TB patient by SMS	<p>A user can use the SMS function from a registered mobile number to 'Janao' app. To do so, SMS can be written as below:</p> <p>EN [Space] Patient ID [Space] DOTS Enrollment number</p> <p>Example: <b>EN YYYYYYY-YY-YYYY XXXX</b></p> <p>The <b>SMS</b> should be sent to <b>01730380078</b></p> 
6B	Refer a notified TB patient by SMS	<p>A user can use the SMS function from a registered mobile number to 'Janao' app. To do so, SMS can be written as below:</p> <p>REF [Space] Patient ID [Space] DOTS ID</p> <p>Example: <b>REF YYYYYYY-YY-YYYY XXX</b></p> <p>The <b>SMS</b> should be sent to <b>01730380078</b></p> 
6C	Record a notified TB patient taking	<p>A user can use the SMS function from a registered mobile number to 'Janao' app. To do so, SMS can be written as below:</p> <p>PC [Space] Patient ID</p>

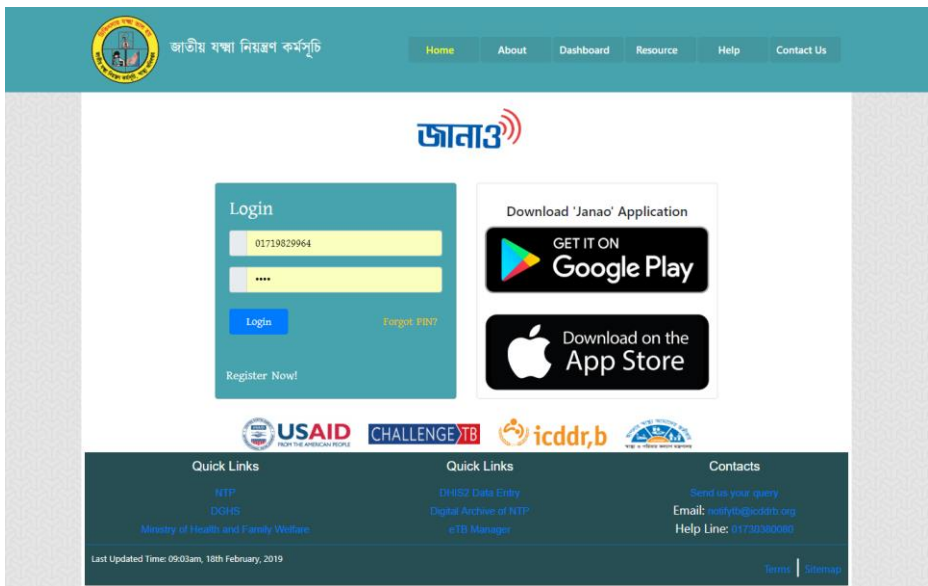

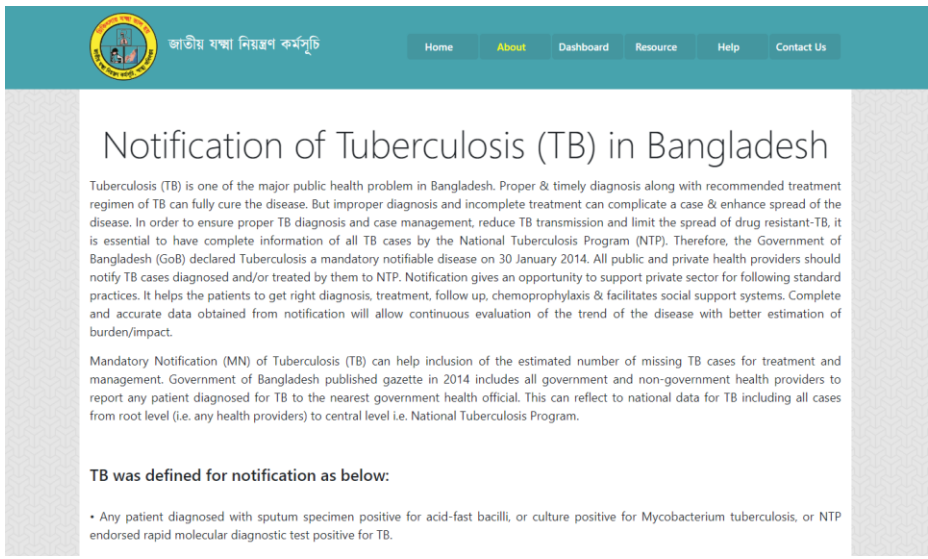

#	Item	Description
	drugs privately	<p>Example: <b>PC YYYYYYY-YY-YYYY</b></p> <p>The <b>SMS</b> should be sent to <b>01730380078</b></p> 
7	Seek help	<p>A user can seek help by tapping the menu on upper right corner of 'Janao' application. A sliding bar will be visible having a 'Help' option on the bar can be tapped to get help by call/SMS to helpline mobile number, or through helpline email address, or through Frequently Asked Questions (FAQ).</p> 

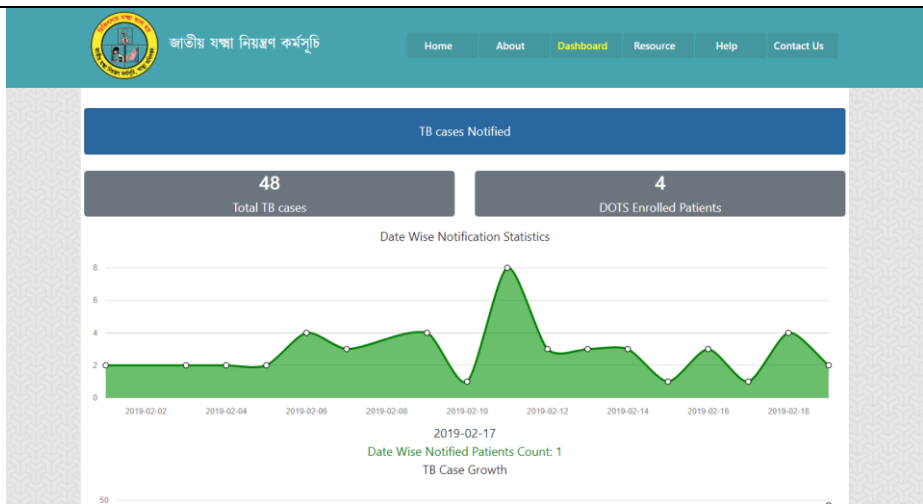

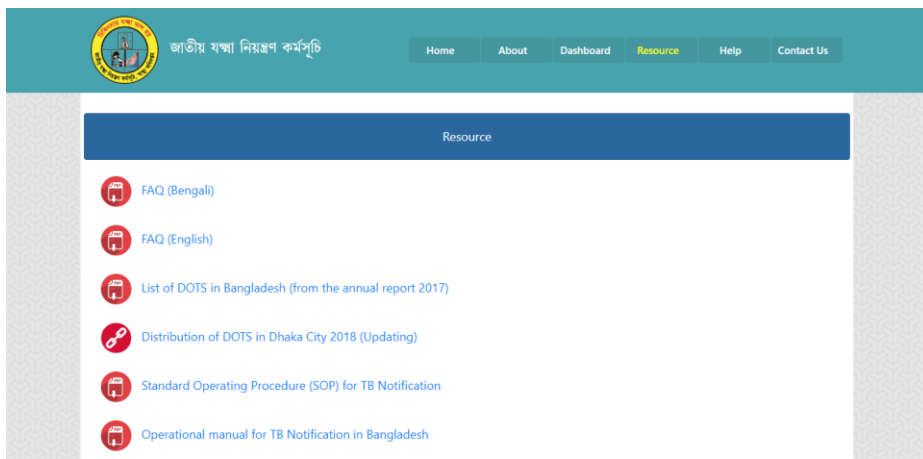

## Using the web application

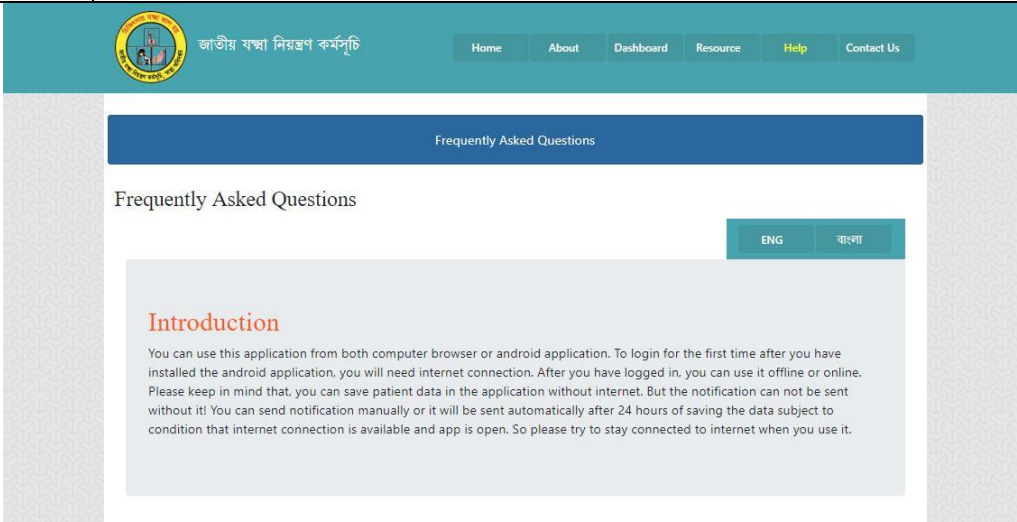

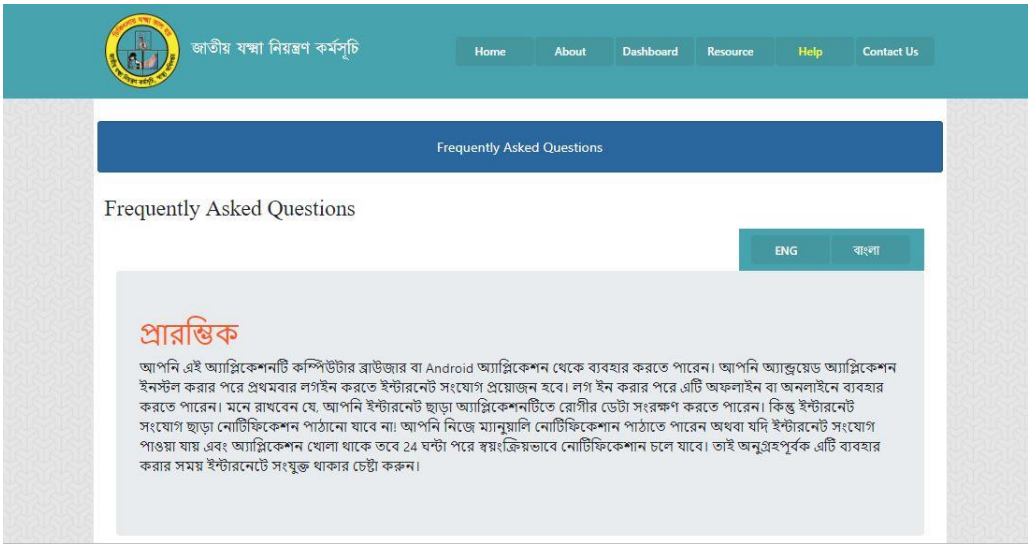

When anyone opens the website the home page will appear as below. This page provides log in option for a user. In addition, anyone can access to any information and function from the top menu, e.g. About, Resource, Help etc. Many other relevant links can be used from the bottom of the page, e.g. NTP website, DGHS website etc.

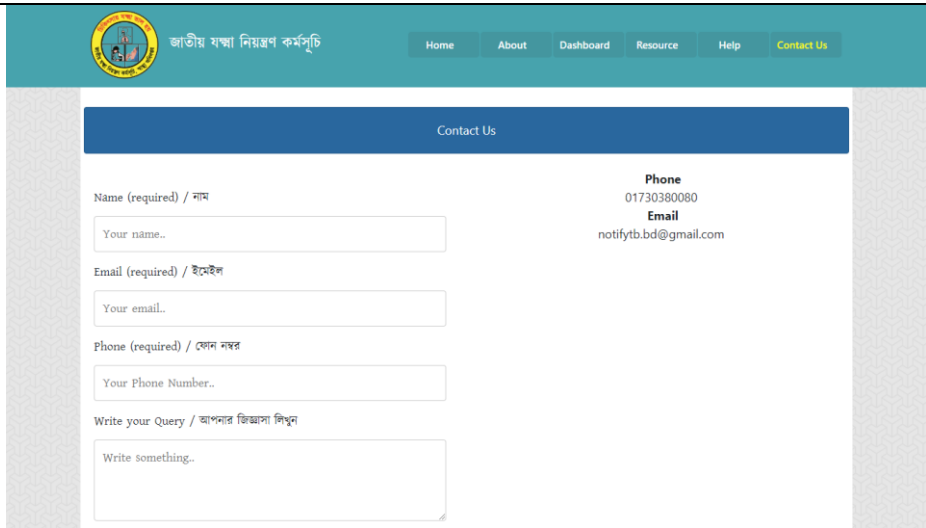

## Particulars of Home & other screens (open for all)

#	Item	Description
1	Home	This is the default/welcome screen when someone click the web link to enter 'Janao' application. The main function of the screen is the login/register

#	Item	Description
		<p>options. Once logged in, the user will see the user section (described later) for browsing all the user functions.</p> 
2	About	<p>By clicking About, a user can have a summary on initiating TB notification in Bangladesh.</p> 
3	Dashboard	<p>By clicking Dashboard, a user can see some major figures on TB notification in Bangladesh.</p>

#	Item	Description
		 <p>The screenshot shows the 'Dashboard' page of the TB Notification system. At the top, there's a header with the logo and navigation links: Home, About, Dashboard (active), Resource, Help, and Contact Us. Below the header, there are two summary cards: 'Total TB cases' with a value of 48 and 'DOTS Enrolled Patients' with a value of 4. A line graph titled 'Date Wise Notification Statistics' shows the trend of notifications from February 2nd to 18th, 2019. The graph shows a peak around February 10th. Below the graph, there's a table titled 'Date Wise Notified Patients Count' with one entry for 2019-02-17 showing a count of 1.</p>
4	Resource	<p>By clicking Resource, a user can find materials like operational manual for MN, SOP for MN, Periodic reports, list/distribution of DOTS and any other contents that are relevant to notification of TB in Bangladesh.</p>  <p>The screenshot shows the 'Resource' page. It has a header with the same navigation links as the dashboard, with 'Resource' now active. Below the header, there's a list of resources, each with a document icon and a title: 'FAQ (Bengali)', 'FAQ (English)', 'List of DOTS in Bangladesh (from the annual report 2017)', 'Distribution of DOTS in Dhaka City 2018 (Updating)', 'Standard Operating Procedure (SOP) for TB Notification', and 'Operational manual for TB Notification in Bangladesh'.</p>
5	Help (FAQ)	<p>Any user seeking help can see Frequently Asked Questions (FAQ) by clicking Help. This will be available in all the major screens of the application with or without logging in.</p>
a. English:

### User section in the web application

To notify TB patients by 'Janao' web application, a user needs to register once at first using 11-digit mobile number. A 4-digit PIN will be sent to the user through SMS after putting registration information. Once registered, a user can log in any time using the mobile number & PIN.

The user screen for an end user (doctor or assistant) is as below:

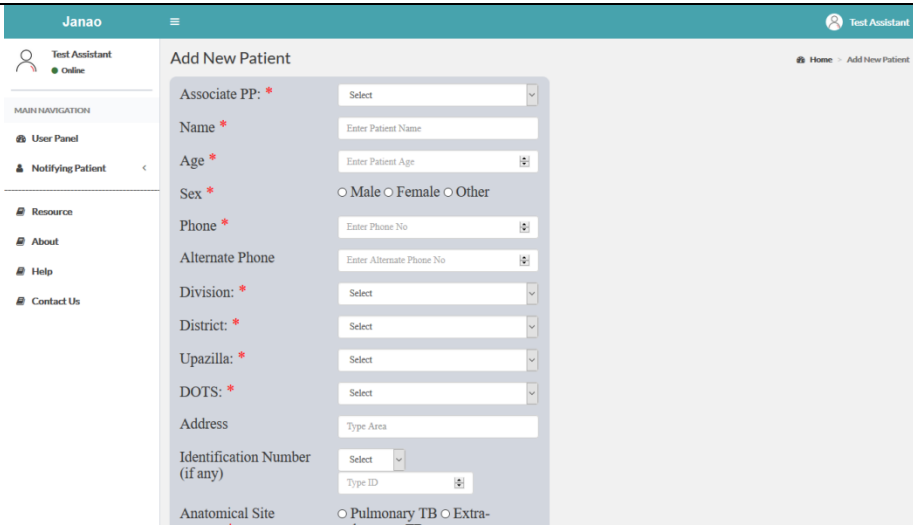

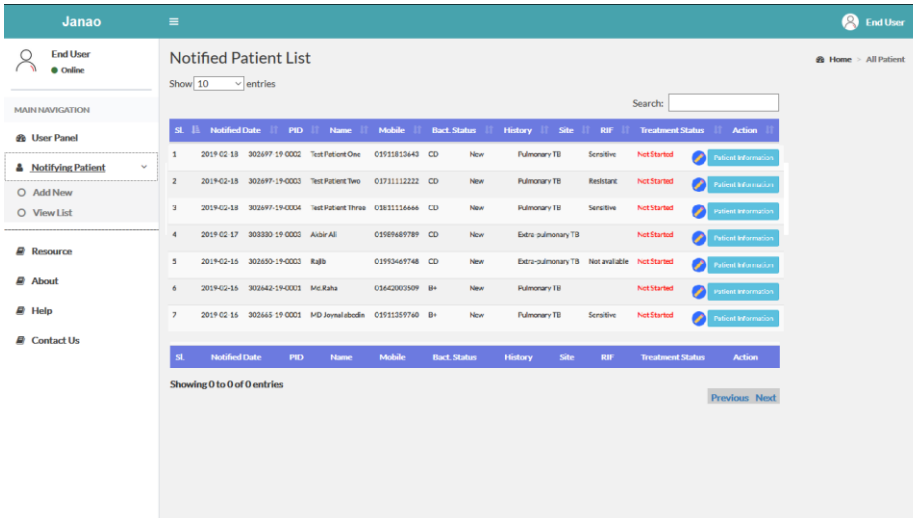

### Particulars of End User screens

#	Item	Description
1	Register with 'Janao' application	A user can register easily by opening the application from the link <a href="http://notifytb.icddr.org">notifytb.icddr.org</a> . Click 'Register Now' link on the lower left portion. A few basic information including 11-digit mobile number will do. Clicking the Register button will confirm your registration through SMS within a few minutes.

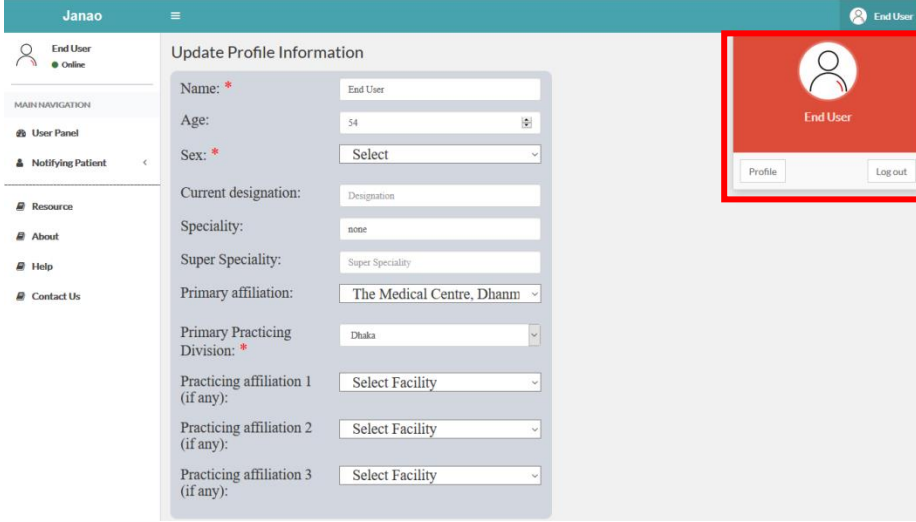

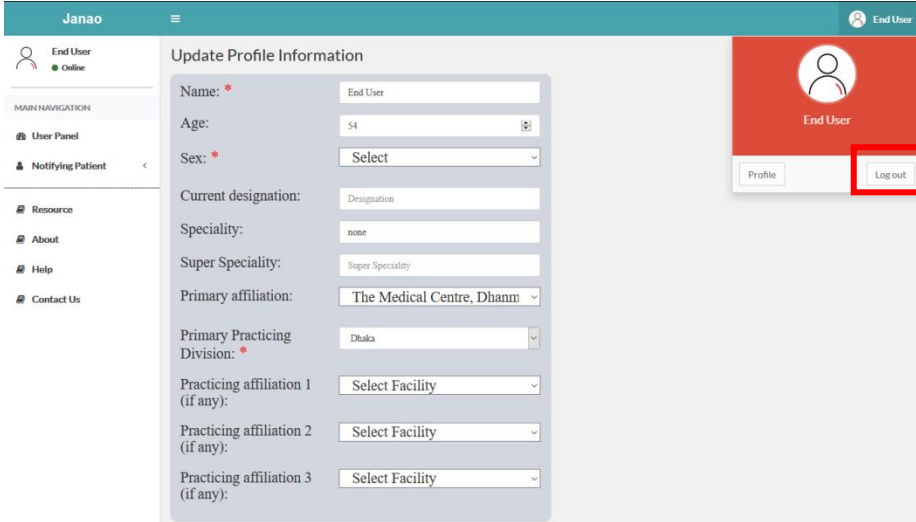

#	Item	Description
		 <p>The screenshot displays the 'Janao' website interface. At the top, there is a navigation bar with links: Home, About, Dashboard, Resource, Help, and Contact Us. The main content area features a 'Doctor / Assistant Registration Process' flowchart. The flowchart is divided into two columns: 'From Mobile App' and 'From Web App'. The 'From Mobile App' column includes steps: Download (Download application from http://notifytb.icddr.org/app), Register (Launch Application, Click Registration Button, Fill up the form), and Confirm (After submitting registration form, you'll get an account activation SMS, You'll also get a PIN by SMS). The 'From Web App' column includes steps: Visit Website (Visit notifytb.icddr.org, Click on "New Registration" button), Register (Fill up the form, Click Registration Button), and Confirm (After submitting registration form, you'll get an account activation SMS, You'll also get a PIN by SMS). To the right of the flowchart is a 'User Registration' form with fields for: Your Full Name, Your Age, a 10-digit phone number (01XXXXXXXXXX), a dropdown for 'Sign Up as', dropdowns for 'Primary Practicing Division', 'Primary Practicing District', and 'Primary Practicing Upazilla', and a 'Register' button.</p>
2	Login to the application	<p>A user will receive a 4-digit PIN with the confirmation SMS. Putting the registered mobile number and the PIN number and then clicking the 'Login' button will log in the user to the application. Once logged in successfully, user can easily notify a TB patient or use other features of the application.</p>  <p>The screenshot shows the 'Janao' website with the 'জানাও' logo. The main content area features a 'Login' form with fields for a 10-digit phone number (01719829964) and a 4-digit PIN (****), a 'Login' button, and a 'Forgot PIN?' link. Below the login form is a 'Register Now!' link. To the right of the login form are two buttons: 'GET IT ON Google Play' and 'Download on the App Store'. At the bottom of the page, there is a footer with logos for USAID, CHALLENGE TB, icddr,b, and the Ministry of Health and Family Welfare. The footer also includes 'Quick Links' (NTP, DHQs, Digital Archive of NTP, eTB Manager), 'Contacts' (Send us your query, Email: notifytb@icddr.org, Help Line: 01730300080), and a 'Last Updated Time: 09:03am, 18th February, 2019'.</p>
3	Notifying a TB patient	<p>After logging in, a user can submit TB patient information by clicking 'Notifying patient' from the left panel. There are two sub menus as described below to accomplish &amp; follow up the function of TB notification.</p>

#	Item	Description
3A	Using 'Add new' by a <b>doctor</b>	<p>A user can notify a TB patient by clicking 'Add new' menu under 'Notifying patient'. A simple form will appear to put information for notification of a TB patient. Some of the information are essential and those fields are marked with asterisk. The doctor or any assignee (assistant) should put all the information to notify a TB patient. If not available, the information for fields not marked with asterisk may be skipped.</p>
3B	Using 'Add new' by an <b>assistant</b>	<p>A user can notify a TB patient by clicking 'Add new' menu under 'Notifying patient'. A simple form will appear to put information for notification of a TB patient. Some of the information are essential and those fields are marked with asterisk. Any doctor's assignee (assistant) should select the name of the doctor s/he is notifying for first. Then put all the information to notify a TB patient. If not available, the information for fields not marked with asterisk may be skipped.</p>

#	Item	Description
		
4	View list	<p>Once one or more TB patients are notified, a user can view the list of the patients by clicking 'View list'. The end user will also get treatment enrollment information of each notified patient by SMS within 15 days of notifying. This will be visible in the list of notified TB patients and details of each patient can also be seen.</p> 
5	Search	<p>There is a search field above the table that becomes visible by clicking View List. This is to help the users to search with any keyword to get return from such list within 'Janao' application.</p>

6	Check User panel	<p>'By clicking 'User Panel' from left side, user specific summaries, e.g. number of notified patients, number of DOTS enrollment, number of pulmonary/extra-pulmonary patients etc. will be visible.</p> <div><div><div><div><div>End User</div><div>Online</div></div><div>MAIN NAVIGATION</div><div><div>User Panel</div><div>Notifying Patient</div></div><div>Resource</div><div>About</div><div>Help</div><div>Contact Us</div></div><div><div><div>Janao</div><div></div></div><div><div>End User</div><div>Online</div></div><div>User Panel Control panel</div><div><div>7 Total Patients</div><div>2 DOTS Enrolled Patients</div><div>5 Pulmonary Patient</div><div>2 Extra Pulmonary patient</div></div></div></div></div>																																																																																								
7	Update/edit Profile	<p>A user can see his/her name after logging in on the upper right corner of the 'Janao' application. By clicking over the name, a 'Profile' button will be visible on the left of the sliding menu. This can be used to update profile information related to professional practice/affiliation.</p>																																																																																								

#	Item	Description
		
8	Log out	<p>By clicking over the user name, a Logout button will be visible on the right of the sliding menu. After completing necessary operation in the application, user is recommended to click the 'Logout' button.</p> 

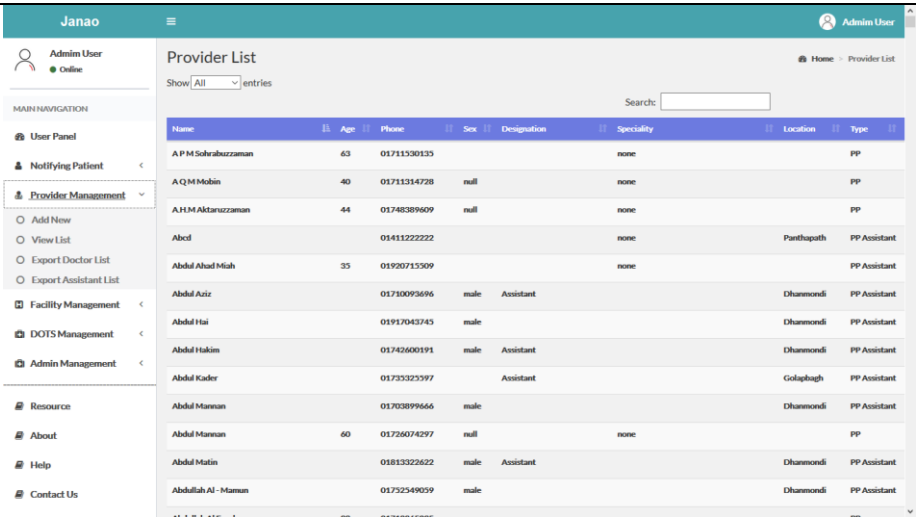

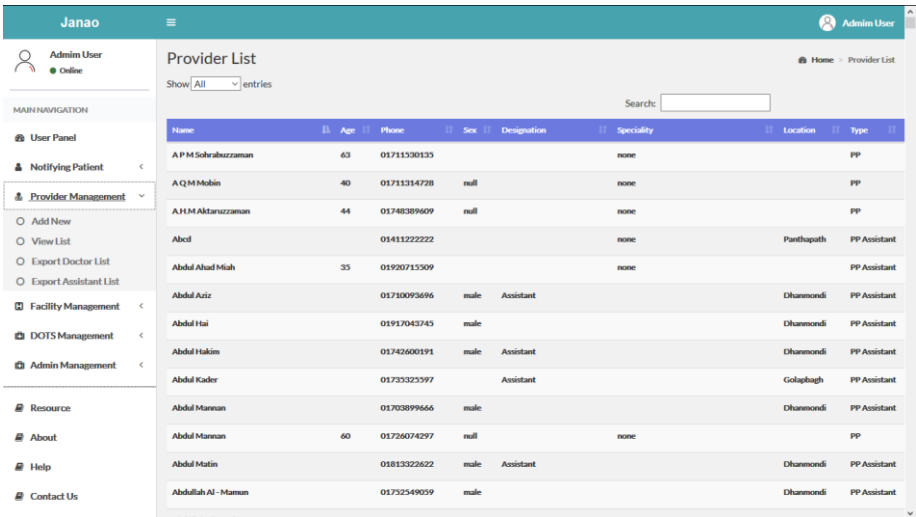

The user screen for an admin user is as below: an admin user can do the functions as described below.

#### Particulars of Admin user screens

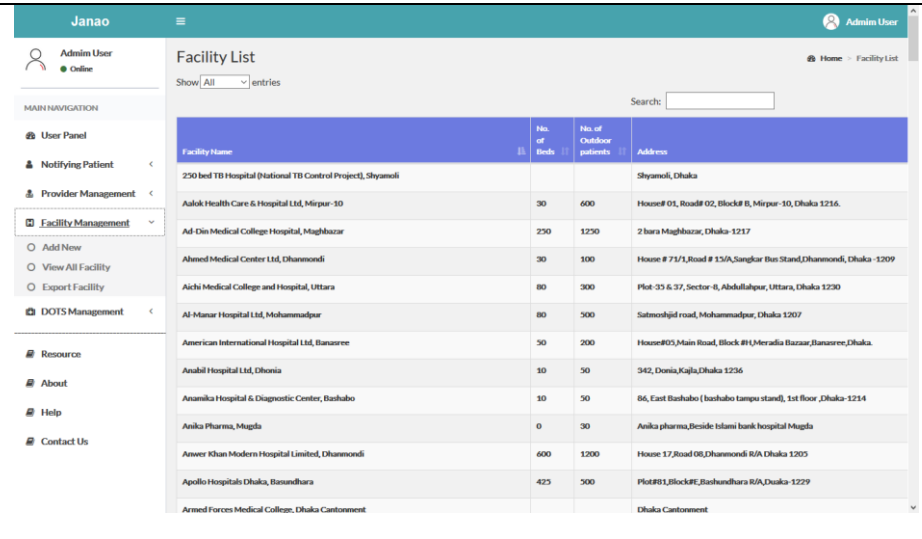

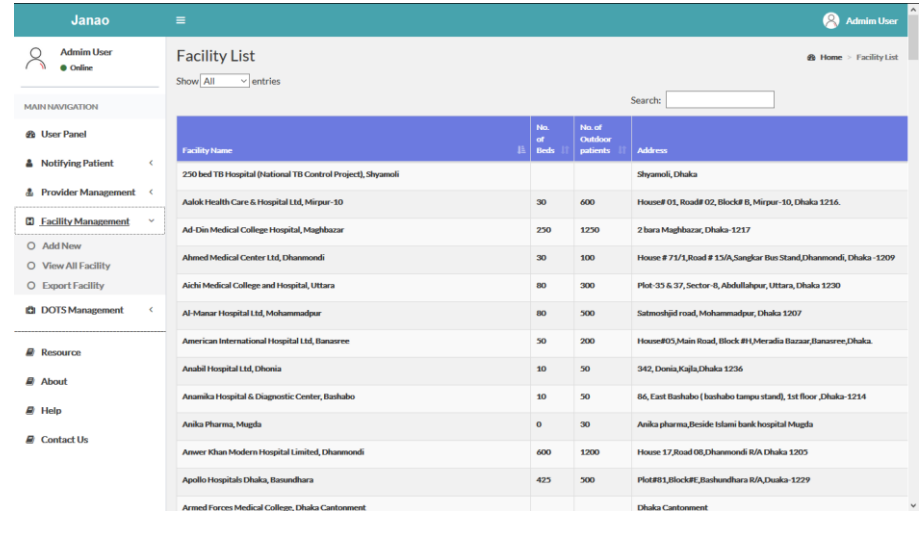

#	Item	Description
1	Using 'Notifying patient' menu	An admin user can use the 'Notifying patient' menu on the left panel after logging in. The sub menus available are as below.

#	Item	Description
		
1A	View list	<p>A user can view the list of notified patients by clicking 'View list'. S/he can also view individual patient details by clicking 'View information' button to the right.</p> 
1B	Search as required	<p>There is a search field above the table that becomes visible by clicking 'View list'. This is to help the users to search with any keyword to get return from such list within 'Janao' application.</p>

4A	View list	<p>A user can view the list of registered DOTS or DOTS staff by clicking 'View DOTS list' or 'View DOTS staff' respectively. S/he can also view individual details by clicking 'View information' button to the right.</p>  <p>This screenshot is similar to the first one, showing the Janao application interface. The 'DOTS Management' menu is expanded, and the 'View DOTS List' option is highlighted with a red box. The main content area displays the same table of DOTS locations.</p>																																										

#	Item	Description
		
4B	Search as required	<p>There is a search field above the table that becomes visible by clicking 'View list'. This is to help the users to search with any keyword to get return from such list within 'Janao' application.</p> 
5	Check user Panel	<p>'By clicking 'User Panel' from left side, user specific summaries, e.g. number of notified patients, number of DOTS enrollment, number of pulmonary/extra-pulmonary patients etc. will be visible. There will also be some graphical chart of TB patient notification based on date and location for an admin user.</p>

#	Item	Description
		
6	Push message	<p>An admin user can broadcast push notification as a reminder/promotion among the registered 'Janao' application users through a Broadcast Message Panel under 'User Panel'.</p> 
7	Update/edit Profile	<p>A user can see his/her name after logging in on the upper right corner of the 'Janao' application. By clicking over the name, a 'Profile' button will be visible on the left of the sliding menu. This can be used to update profile information related to professional practice/affiliation.</p>

#	Item	Description
		
8	Log out	<p>By clicking over the user name, a Log out button will be visible on the right of the sliding menu. After completing necessary operation in the application, user is recommended to click the 'Logout' button.</p>
